

BIG LEAD MINES  
TO BE OPERATEDG. S. Holmes Acquires Campbell  
Property at Good Springs.WEALTHY EASTERNERS IN T  
REPORT THAT PROPERTIES OF  
BINGHAM MAY UNITE.

G. S. HOLMES, proprietor of the Knutsford hotel, has just acquired a bond on the Allen G. Campbell lead mines in the Good Springs section of Lincoln county, Nev. The figure at which the bond was acquired could not be learned, but as the will of Mr. Campbell provided that the property should not be sold for less than \$200,000, pending the time when the youngest heir should become of age, the figure named was certainly not less than that amount, and probably considerably more.

The deal is believed to be the beginning of some more energetic operations at the property, which is described as being a veritable mountain of lead-silver ore. About the first of the coming month a party of eastern investors whose combined wealth exceeds \$100,000, are scheduled to arrive in a private car and proceed to California. From there the entire party will be driven down along the route of the new Los Angeles and Salt Lake railroad, when plans for the future handling of the immense property will be formulated.

It is understood that no attempt will be made to equip the mines with reduction works until the railroad, which will run within a short distance of the camp, has been completed. Then, it is declared, the mines will be made to produce a tonnage of bullion that will compare with the output of the famous Cœur d'Alene mines of Idaho.

## BIG BINGHAM CONSOLIDATION.

Reported That Sam Newhouse Is Formulating Gigantic Scheme.

If a plan, now said to be incubating, matures, all the great mines of Bingham will, one of these days, be brought under one canvas, as it were, with a combined capital, the amount of which will be determined by the market value of the various interested companies' holdings at the time the scheme is rounded out.

The first intimation of what the scheme is reached this city only a few days ago, and its very boldness marked Samuel Newhouse as the man behind the undertaking. It is said to be the undertaking of a party of men to start the ball rolling on a plan to consolidate the United States, Utah Consolidated, Bingham and Boston Consolidated companies' mines and smelters into one mammoth corporation, with one management, and a consequent reduction in operating and general expenses.

The undertaking is one of such magnitude that few will be inclined to give the story credence, but the source from which it emanated entitles it to serious consideration. Some of the very best and most successful of the companies named are said to have given their sanction to the plans reported to have been outlined by Mr. Newhouse prior to his departure for Europe, and the understanding is that he is now working on the details.

Shares in the United States company are now selling on the basis of nearly \$10,000,000 for the property; Utah Consolidated has a market value of between \$5,000,000 and \$7,000,000; Bingham is going at about \$10,000,000; and Boston Consolidated is selling for about one-half of that sum. Before anything approaching a consolidation of these interests could be possibly effected, the values would more than likely have advanced to such an extent that \$30,000,000 would be a conservative estimate of their market value, and the absorbing organization would necessarily have to be capitalized for at least that much.

The Utah Consolidated is now producing 1,000,000 pounds of copper per month, the Bingham company is rolling out something like 800,000 pounds and within the next few months the United States company will be adding not less than 1,000,000 pounds more to the output. That the Boston Consolidated is capable of supplying ore enough to add to this estimate 600,000 pounds more, will hardly be questioned, so it is seen at a glance that combined, these mines could be counted upon from the start to produce nearly, if not quite, 3,500,000 pounds of copper per month. As there is little or no question but what the gold and silver values in the ores of these mines named would pay the entire cost of operating under the combination plan a \$30,000,000 capitalization would draw an alluring rate of interest from the copper product alone.

## J. I. C. TO RESUME.

New Blood in the Company to Push Development Energetically.

About the middle of last month The Herald announced that a working lease and bond on the J. I. C. company's property at Park City had been secured in the name of E. J. Wilkinson, a surveyor, and that on the perfection of arrangements, an active campaign of development would be commenced. G. D. E. Turner, the Butte mining expert, and expert, was said to be prominently identified with the transaction and later developments show this to have been the case.

Yesterday the announcement was made that the purchasing syndicate had been organized and while its identity was not made known, the information was released that an active campaign had been decided upon and that a force of men under the superintendency and management of Mr. Turner would be put to work.

The property consists of five patented claims almost surrounded by the possessions of the Daly-West, Daly-Judge and Little Bell companies and is reckoned to be one of the most eligible located blocks of ground in the camp. It is less than 1,000 feet from the J. I. C. side line, and the management announces that \$15,000 of the amount will be applied to the company's indebtedness and the balance used to meet running expenses.

Another announcement in the same sum, at least, will likely follow immediately after the collection of this one, and

of the mine proves up as it is expected it will do, that will likely be the last.

**OPERATE AT GOLD MOUNTAIN.**

The Cummings Mining & Milling Company, with its principal offices at Kanosh, Millard county, Utah, yesterday incorporated by filing articles with Secretary of State Hammond. The company, which will devote its attention to a general mining business, including one operation at a number of claims in the Gold Mountain mining district in Piute county, is capitalized at \$35,000, divided into shares of the par value of 10 cents each.

William Cummings is president, Charles Whitaker, vice president; Ada Whitaker, secretary, and W. C. Cummings, treasurer. The officers, including James Gardner and Harvey Cummings, form the directorate.

**Ore and Bullion.**

During the past week ore and bullion settlements in this city, as reported by McCormick & Co., amounted to \$88,999, with the exception of the total being \$14,700, divided as follows: Silver, lead, cobalt and copper ore, \$35,300; base bullion, \$13,700.

**Metal Market.**

Silver, 52½¢ per ounce.  
Copper, 17¢ per pound.  
Lead, \$3.90 per 100 pound.  
No quotations from New York yesterday.

**MINING STOCK MARKET.**

**Week Closings to Good Business and a Strong Tone.**

During the week ended yesterday 24,923 shares of mining stocks were sold on the exchange, with a total valuation of \$1,024,215. A substantial increase over the previous week's business. A greater number of shares were traded in than for some time past, and the tone of the market has been strong and regular and open board call yesterday 23,555 shares sold for \$18,137.57, with seven cents advance on the part of the market compared with prevailing prices at the beginning of the week, the condition of the market is disclosed in the following summary:

Alax, at 24 cents asked, is 1 cent higher, and Carls is going for 24 cents more, at 25½ cents. California is about 8¢ lower, at 41 cents. Bingham is 1 cent higher, at 10¢. Utah Consolidated is 1 cent higher, at 10¢. Boston Consolidated is 1 cent higher, at 10¢. United States is 1 cent higher, at 10¢. Bingham is 1 cent higher, at 10¢. Utah Consolidated is 1 cent higher, at 10¢. Boston Consolidated is 1 cent higher, at 10¢. United States is 1 cent higher, at 10¢.

## CALIFORNIA'S ASSESSMENT.

Directors Call on Shareholders For the Sum of \$18,000.

At a meeting of the directors of the California Mining & Milling company held on Friday night, an assessment of 6¢ a share, on the capital stock of the corporation was levied. It is payable at once, and becomes delinquent on Sept. 6, and sale day is fixed for the 27th of the same month.

This assessment will bring in the sum of \$18,000, and the management announces that \$15,000 of the amount will be applied to the company's indebtedness and the balance used to meet running expenses.

Another assessment in the same sum, at least, will likely follow immediately after the collection of this one, and

## San Francisco Mining Stocks.

Manager Charles Read marketed a car

of ore from the Excelsior of Eureka, Nev. yesterday.

Four cars of Tonopah ore were on the market yesterday.

Colonel Trewick is scheduled to return from Boston tomorrow.

The Conklin sampler was yesterday in receipt of one car of ore from Nevada.

The Taylor & Brunton sampler yesterday reported the receipt of four cars of ore from Tintic, five from Nevada and one from Bingham.

William F. Snyder, president and manager of the Western Exploration company, is expected back from San Francisco tomorrow.

The South Swansea reported in yesterday's ore market with two carloads of high-grade material, the coming and Rabbit Foot each reported with one.

L. T. Colbath has returned from a several days' trip into the Wood river country, Idaho, where he has been inquiring into the condition of several properties in which he is interested.

J. J. Daly and J. J. Broughall, manager and assistant manager of the Daly-Judge Mining company, visited Park City Friday to render personal attention to the care of the bodies of the unfortunate men killed in the mine explosion, and to extend personal sympathy to the bereaved families.

Secretary A. E. Snow of the Martha Washington company returned yesterday from a several days' stay at the mine, which he says is in good condition, and that the mine is now open and ready for work.

Some ore has been opened up on the main Martha vein, and a shipment could be made if sale was determined.

Walter G. Flier, who left early in May to go to Montana in the company of the late George W. Flier, is reported to be in the city, and is now figuring on operating street railways in that far-off metropolis.

It is understood that he has turned the Philippine proposition down cold and will hereafter devote his mining interests to his undivided attention.

C. W. Luck writes that he is preparing to go out prospecting for copper in the Tals and others again. He spent some time in the Thunder mountain district in the earlier part of the week, and is now trying the Big creek and Marshall lake sections of Idaho, where he counts on finding a good mine.

The failure of the Dewey company to construct a road and take in its new property, and the fact that it has a tendency to give the country a black eye, though he believes some good mines will yet be opened there.

Stocks bought for cash or on margin. Money loaned on stocks of recognized value. Room 26, Walker's Bank Bldg.

## KOLITZ

Ogden Excursion, Sunday, Aug. 10.

Via Oregon Short Line—Special train at 10:00 a. m. for Ogden, returning to Ogden at 9:00 p. m.

Round trip only \$1.00. Refreshments served on train free.

## SALT AIR'S SACRED CONCERT,

Sunday, Aug. 10.

Will be the musical treat of the season. Come listen to enchanting melodies while the balmy breezes of the great lake exhilarate and refresh you. Round trip 25¢.

## TO GLENWOOD SPRINGS

And Return, \$15.00.

Via Rio Grande Western railway. Selling dates Aug. 15th, 16th, 17th, 30th, 31st and Sept. 1, good 20 days. The Glenwood mountain resort in America. Superb bath houses, cave and pool bathing without parallel in the world all within your reach.

## UTAH'S STAR ATTRACTION

IS SALT AIR BEACH.

Famous throughout the world for its healthful bathing, its exhilarating atmosphere, its beauty and grandeur. Trains every hour from 10:30 a. m. Fare 25¢.

## ELKS' YELLOWSTONE EXCURSIONS.

Via Oregon Short Line.

Fare only \$5.00 including hotel accommodations beyond Monida. Round trip nicely made in a week's time. Tickets on sale until Aug. 15 inclusive. Reservations must be made in advance. CITY TICKET OFFICE, 201 Main street.

## TYPHOID ON INCREASE.

Fewer Suffered Fever Cases This Week Than Last.

For the week ending Aug. 9 there were seventeen births reported to the board of health, nine males and eight females. The deaths reported for the same period were thirty-four, twenty-four males and ten females.

Five new cases of scarlet fever were reported during the week and eight having been discharged left twelve cases in quarantine, three less than the preceding week. Of diphtheria there were three cases in quarantine at the close of last report. Two cases died during the week and none having been discharged left three cases in quarantine at the close of the week.

No new cases of smallpox were reported and one was discharged, leaving nine cases in the city, one less than the previous week.

There were twelve cases of typhoid fever at the close of last week, three new ones were reported and two died, leaving fifteen cases under medical supervision excepting those being treated at the hospitals.

## LEARN HOW

To Feed Yourself Skillfully.

It is easy to use good food and get well and keep that way, but a person must go about it.

A lady says, "I had a dreadful time of it before I learned how to feed myself properly. I suffered with stomach trouble for about ten years and finally got so bad that terrible pains would set in, followed by nauseating sickness to the stomach and bowels. I was told I would have to lie flat on my back. My stomach finally got so bad that I would throw up anything I ate and of course, I lost weight and strength very rapidly. I became pale. Blood was out of order and I looked like a skeleton finally.

"One day neuralgia set in in the stomach and liver and I went right down to death's door. I got so bad that even warm water was thrown up. I was told to eat nothing but gruel, but I was absolutely nothing until I began taking Grape-Nuts in small quantities.

"My father had been accustomed to Grape-Nuts and knew of the value of the food and began giving it to me. I immediately began to improve, and the stomach retained the food and digested it. I gradually grew up again and now I can eat a hearty dinner of all sorts of food. I have gained thirty pounds in weight. My brain is clear, my skin beautifully white, and my eyes as bright as crystal. I am now a healthy woman with lack of luster eyes. I owe everything to Grape-Nuts. Please give me your name." Name given by Estemum company, Battle Creek, Mich.

BIG SLUMP IN  
PRICE OF PORK

Weakness of Corn Thought to Be Cause of Decline.

## WHEAT SINKS TO LOW LEVEL

BEARS HELD SWAY IN GRAIN AND PROVISION MARKETS.

Chicago, Aug. 9.—Provisions were demoralized until late in the session. There was a great selling pressure in the shape of liquidation in September and October contracts. The market was everywhere offering a revival of the market, with no takers.

The bottom was reached in the decline of about 8 cents. Lard had been firmest of the products, and turned strong on support. The hog market, which had been lower on only 5,000 head receipts, turned up late, with a view to attracting more stock to the market next week.

Corn, the weakness of which was the primary intonance in the provision selling, turned firm. After the severe break there was an inactive tendency, and the day's losses were much less than the previous day's gains. The market was everywhere offering a revival of the market, with no takers.

September pork sold from 15.55 to 15.75, and closed weak, 15 cents off, at 15.35. January sold from 14.55 to 14.75, and closed weak, 15 cents off, at 14.35. September lard sold as low as 10.50, and closed at 11.50, at 10.75. September ribs dropped from 10.20 to 9.60, and closed 12½¢ off, at 10.25.

It was weak early that it caused a weakness in everything else on the floor. After slumping over 7 cents in one week, an additional decline in depression had been reached. The weather was favorable, and crop reports were bullish. Texas was asking for bids for crop insurance. The market was everywhere offering a revival of the market, with no takers.

The crowd turned bullish, but the reaction had been so great that it was hard to overcome. September, which slumped to 50¢, rallied to 61½¢, but closed only a trifle firmer, 61¼¢. It was weak early that it caused a weakness in everything else on the floor. After slumping over 7 cents in one week, an additional decline in depression had been reached. The weather was favorable, and crop reports were bullish. Texas was asking for bids for crop insurance. The market was everywhere offering a revival of the market, with no takers.

Corn weakness brought a slump in the September closed weak, ¼¢ off, at 30¼¢.

The leading futures ranged as follows:
